May 31, 2022

Letter of Recommendation

To Whom it May Concern:

We are software students at Aalborg University where we've had the pleasure of being supervised by Tung Kieu during our bachelor project. This recommendation is written for Tung Kieu because of his exceptional expertise and guidance as our supervisor throughout our bachelors project lasting from February-June 2022.

Tung has shown great commitment during the entire project and excelled at conveying and simplifying advanced topics within his field of expertise. The support Tung has provided during the project has helped us develop our skills within the field of machine learning in addition to teaching us how to write and understand scientific papers.

We are sure that Tung will provide great value for Aalborg University in regards to teaching and guiding other students in the field of computer science.

Sincerely,
Frederik Jakobsen,
Jack Christensen,
Jacob Carstesen,
Rune Bohstedt
